President's Corner

Dear Members and Friends of UWIAA, Florida Chapter:

It is always a pleasure to share my thoughts with you, especially those that relate to our beloved UWI. For many of us in Florida, the link we have with our alma mater whether high school or college, (and for some of us both high school and college), is precious and serves as a basis and driving force in our altruistic endeavors. Of course, we have a lot to be thankful for: the University of the West Indies and other Jamaican educational institutions provided us with a solid education foundation that has served us well. For example, the education that we received at the University of the West Indies helped us to succeed in other educational endeavors, and to be skilled leaders and professionals as well as self-sustaining and independent citizens. I am humbled at the opportunity to be your president and approach this second year of my term with the same enthusiasm as I did last March 2012. Thanks for your support in 2012; and with your support, 2013 will be better.

A special word of appreciation for members of the executive who continue to work tirelessly and quietly: they have caused this association to function smoothly. Like me, they are beginning the second year of their tenure. In February 2014, UWIAA Florida will elect its new board.

- Thanks Ella Gooden for working with AFUWI on the "Adopt-a-Student" campaign, and for being there when the need arose.
- Thanks Justin Peart and Andre Gray for your effort in helping to plan the meetings, and for being available at short notice to meet with me to brainstorm ideas.
- Thanks Geli Eldemire for your legal advice, and for taking on the role of UWI alumni representative to the Coalition of Jamaican Alumni Associations' events.
- Thank you Sandra Schrouder for sending birthday cards to members, and for your role as editor of the newsletter.

UWI graduates and friends, your generosity and hard work have caused this association to reach another milestone. Through your support we have been able to pay our bills, participate in the Adopt-a-Student program, participate in the Jamaican Alumni Associations' Walkathon, and start our own scholarship fund.

I want to celebrate the successes of 2012 with you and invite you to the General Meeting and LYME on Saturday, April 20, 2013 at our usual meeting venue: JEPA'S Place, 7301 W. Oakland Park Boulevard, Lauderhill, Florida 33313. We will begin at 4:00 PM.

Rupert Rhodd PhD (President)

UWIAA ANNUAL MEETING AT JEPA'S PLACE - 7301 W. OAKLAND PARK BOULEVARD, LAUDERHILL, FLORIDA 33313. WE WILL BEGIN AT 4:00 PM.

Professor W. Andy Knight appointed Director, UWI Institute of International Relations

The University of the West Indies is pleased to announce the appointment of the internationally renowned scholar of global governance, Professor W. Andy Knight, as Director of the Institute of International Relations (IIR) based at the UWI St Augustine Campus in Trinidad. A Barbadian by birth, Professor Knight has had a distinguished career as an academic and scholar in Canada, culminating in his heading the Department of Political Science at the University of Alberta.

Professor Knight serves as Advisory Board Member of the World Economic Forum's Global Agenda Council on the Welfare of Children and was a Governor of the International Development Research Centre (IDRC) from 2007 to 2012. He co-edited Global Governance journal from 2000 to 2005 and was Vice Chair of the Academic Council on the United Nations System (ACUNS).

Professor Knight has written and edited several books, book chapters and journal articles on various aspects of multilateralism, global governance and peace, as well as United Nations reform. His recent books include: Global Politics (with Tom Keating) which was published by Oxford University Press in 2010 and has become one of the seminal teaching tools for students of international relations in many European and North American universities; also The Routledge Handbook of the Responsibility to Protect (with Frazer Egerton); Towards the Dignity of Difference?: Neither 'end of History' Nor 'clash of Civilizations' (with Mojtaba Mahdavi); and Building Sustainable Peace (with Tom Keating, 2004).

His work cuts across international relations, international law and global governance and is known for challenging the embedded orthodoxies of contemporary multilateralism. A much sought-after analyst, Professor Knight has been named a Fellow of the Royal Society of Canada – the highest honor afforded to Canadian academics.

Appointment of Pro Vice-Chancellor, Undergraduate Studies

The University of the West Indies is pleased to announce the appointment of Professor Alan Cobley as Pro Vice-Chancellor for Undergraduate Studies with effect from February 1, 2013, succeeding Professor Alvin Wint who had served in the position for two outstanding three-year terms.

Professor Cobley joined the staff of the UWI at the Cave Hill Campus in 1987 as Assistant Lecturer in the Department of History and rose quickly through the academic ranks, having been awarded tenure in 1991, been promoted to Senior Lecturer in 1995 and to a Professorship of South African and Comparative History, in 2002.

UWI Mona Goes Digital – Students to Reap Benefits from Introduction of E-books and Smart Tablets

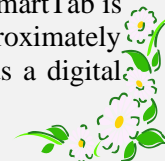

Minister of Education, Ronald Thwaites (right) keenly observes one of the Android 4.0 SmartTab tablets which will be offered to students of The University of the West Indies Mona as an affordable option to access e-books. Sharing in the moment are (from left): Professor Gordon Shirley, Principal, UWI, Mona, Leona Bobb-Semple, Campus Librarian, Phillip Paulwell, Minister of Science, Technology, Energy & Mining and Julian Robinson.

The University of the West Indies, (UWI) Mona has introduced electronic books to students in the Faculty of Medical Sciences, making the program more affordable to its students. This is another innovation for The UWI Mona, being the first educational institution in the English Speaking Caribbean to offer e-book services to students. The e-book program which was launched at the new faculty of Basic Medical Sciences on February 19, 2013, was initiated as a response to the increasing cost of tertiary education, primarily the cost of text books in the Faculty of Medical Sciences.

The initiative aims to provide students studying at The UWI Mona, convenient and cost-effective access to textbooks; along with a seamless integration of technology into the teaching and learning experience. Speaking at the launch, Minister of Education Rev. the Hon. Ronald Thwaites lauded The UWI Mona for the E-Book project. “We spend roughly \$3 billion a year in this country purchasing school books. The state spends about a third of that and this project represents the application of technology, which will remove the burden of the heavy cost of printed material, which many of our parents can scarcely bear,” the minister stated.

The University has partnered with overseas based company VitalSource which via its application ‘Bookshelf’, allows students access to their required books and will automatically provide software updates for the duration of their studies. Each student will have access to 18 of the core books needed to complete their entire program at a cost of US\$199.76 per year. This cost is a mere fraction of the total cost of purchasing all 18 books hard copy, as one of the required texts costs approximately JMD\$23,000 (US\$234). Students will be able to read electronically on a variety of devices, including traditional computers, iPads, Amazon's Kindle, iPhones, and more. For those students who do not own a mobile device that allows easy access to their e-books, The UWI Mona has also provided a solution – a kit which includes an affordable seven inch Android 4.0 Smart tablet (SmartTab).

JL Mobile is the company that was commissioned by The UWI Mona to design, implement and provide all technical support to students as needed for the SmartTab. Designed in Jamaica by Jamaicans, the Smart Tabs come standard with USB, HDMI, and SD ports, features not found on big brand name tablets. The SmartTab is covered by a seven month warranty, including free technical support, and will cost each student approximately US\$200. The long term plan is to roll out the e-book program across all faculties, moving towards a digital University, thus heightening the overall learning experience.
